5. **Discussion with Planning Commission Candidate Andrew McNealus:**
Andrew grew in Woodstock and went to GMVS and then to Middlebury. He coached a few years which led him to Stowe for bit. He has gotten into Real Estate which has opened him up to Planning & Zoning, mostly in the Burlington area. He has recently moved to Fayston and sees being here in his Long-Term goals.
Doug: Have you read the Town Plan & LURs?
Andrew: Yes, although I haven't read the Town Plan cover to cover yet?
Freddie: What were the questions asked to me? What do feel about STRs, Storage Containers and McMansions? You don't have to answer that.
Andrew: The STR thing, having been in Stowe. I think it is going to come up in a lot of Vermont towns. Seems like something that may need to be addressed.
Pete: How do you view growth vs. cost of growth?
Andrew: Smart growth. If you have a good Town Plan and LURs you can kind of dictate where and how you grow. With enough thought you can plan accordingly and have the best of both worlds.
Jason: Are you familiar at all with the HOME Act the state legislature passed?
Andrew: Yes, a little bit.
6. **Liaison Reports:**
Doug stated that his Liaison Report was about the MRVPD's Annual Data Report.
